

## Variables

<b>Variable</b>	<b>Effect it may have on school absences</b>
<b><i>push to exit toilets</i></b>	<i>more push-to-exit toilets mean that viruses are less likely to be left on the door on the way out so absences might be lower</i>
<b><i>number of children at the school</i></b>	
<b><i>location of school (e.g. town or country?)</i></b>	
<b><i>volume of soap used by the school</i></b>	
<b><i>number of children at school vaccinated against flu</i></b>	
<b><i>number of children travelling to school by bus</i></b>	
<b><i>type of handles on doors (e.g. metal or plastic?)</i></b>
